Beretania Sts.

THE SIMPLE LIFE

In his address introducing Pator Wagner, the author of the "Simple Life," to an audience in Washington, President Roosevelt related the following incident:

"As an example of what can be done, and should be done, by the individual citizen, I shall mention something that recently occurred in this city of Washington, a thing that doubtless many of you know about, but which was unknown to me until recently. A few weeks ago, when I was walking back from church one Sunday, I noticed a great fire, and found that it was Downey's livery stable—you recollect it, three or four weeks ago, when the livery stable burned. Through a train of circumstances that I need not mention, my attention was particularly called to the case, and I looked into it.

"I had long known of the very admirable work done with singular modesty and self-effacement by Mr. Downey in trying to give homes to the homeless, to be himself a friend of those in a peculiar sense friendless in this community, and I, by accident, found out what had happened in connection with this particular incident. It appears that last spring Mr. Downey started to build a new livery stable; his stable is next door to a colored Baptist church. Mr. Downey is a white man and a Catholic, and these

WILLIAM F. DOWNEY

neighbors of his are colored men and Baptists, and their kinship of that broad humanity that should underlie all our feelings toward one another.

"Mr. Downey started to build his stable, and naturally wanted to have it as big a stable as possible, and build it right to the limits of his land. That brought the wall close up against the back of the colored Baptists' church, cutting out the light and air. The preacher called upon him and told him that they would like to purchase a strip six-foot broad of this ground of Mr. Downey, upon which he was intending to build, as it would be of a great inconvenience to them to lose the light and the air; that they were aware that it was asking a good deal of him to cramp the building out of which he intended to make his livelihood, but that they hoped he would do it because of their need. After a good deal of thought Mr. Downey came to the conclusion that he ought to grant the request, and so he notified them that he would change his plans, make a somewhat smaller building and sell them the six feet of land in the strip adjoining their church.

"After a little while the preacher came around with the trustee of his church and said they very much appreciated Mr. Downey's courtesy, and were sorry they had bothered him as they had, because, on looking into the affairs of the church, they found that as they were already in debt they did not feel warranted in incurring any further financial obligations, and so they had to withdraw their request. They thanked him for his kindly purpose, and said good-bye.

"But Mr. Downey found he could not get to sleep that night until finally he made up his mind that as they could not buy it he would give it to them, anyway; which he did. But, unfortunately, we know that the tower of Siloam often falls upon the just and the unjust alike, and Mr. Downey's livery stable caught fire and burned down. It was Sunday morning, and the Baptist church was in session next door to him; and the clergyman stopped and said: 'Now, you women stay here and pray, and you men go straight out and help our benefactor, Mr. Downey,' and go out they did, and got his horses all out, so that none of them was burned, although he suffered otherwise a total loss.

"Now, I call that a practical application of Mr. Wagner's teachings. Here in Washington we have a right to be proud of a citizen like Mr. Downey; and if only we can develop enough such citizens we shall turn out just the kind of community that does not need to, but will always be glad to study 'The Simple Life,' the author of which I now introduce to you.

HE WANTS TO KNOW.

They say that Secretary of the Navy Morton can ask more questions in a limited space of time than ex-Minister Wu could ever think of. An admiral was in the secretary's office about some naval business recently, and said that after 21 "whys" had been fired at him in a minute he did not know whether he was talking about submarines or sausages. But the secretary seemed to know, so that was all that was necessary.

KAUAI ELECTRIC IS FINANCED

(Continued from page one)

A. Kinney and W. E. Rowell, two years ago began a thorough survey and exploration of the valley and its water power possibilities, and purchased in fee simple ten of the seventy-two shares of the hui, and secured from the hui a lease for fifty years of the exclusive control of the water power of the valley. Two years of the fifty have already expired. This work including the securing of rights of way for the line of poles to carry the electric wire, for a distance of thirty-five miles, involved an expenditure of nearly \$10,000 besides an immense amount of work not compensated in that amount. Surveys, for instance, including explorations and reconnaissances represent an outlay of about \$2,500. Another \$3,500 represents the cost of purchasing ten shares of the hui, as the original owners are mostly dead, and their heirs and devisees had to be hunted up, and they are scattered all over the group. Another \$2,500 represents the actual expense of getting the signatures of the owners and heirs of owners, and includes the expense of trips to every part of the group. Then there was a trip to Niagara Falls in the course of the investigation of the best means of developing power, and other similar expenditures.

The total preliminary work of the enterprise was very cheaply done for about \$15,000. In the organization of the corporation this amount, together with the land bought in fee simple, and the leases and rights of way, are transferred to the Kauai Electric Company in exchange for 1501 shares of the corporation, but with an option to McBryde plantation for a transfer of the stock to it, whenever the plantation repays this sum of about \$15,000 to Kinney and Rowell. Aside from this there are absolutely no promotion fees in the new enterprise.

Of the 3,000 shares of the stock of the new corporation, 1,499 are issued to McBryde Sugar Company in exchange for \$150,000 of McBryde bonds. McBryde is to furnish the money to create the plant of the Kauai Electric Company, and is to have a lease of it for forty-eight years after it is completed, and is to pay a rental of \$10,000 a year. A contract has been entered into with the Hawaiian Electric Company by which that concern is to furnish the electrical equipment for the new concern, taking in payment a part of the Kauai Electric Company's issue of \$150,000 of bonds, and paying cash for the remainder of the issue, so that the entire bond issue of the Kauai Electric Company is thus placed at once.

Henry Jaeger, backed by the Allen estate, is to do the tunnelling and dig the ditches necessary for the diversion of the water and the development of power.

The entire plan is that the water power when developed and the plant constructed shall be owned and controlled by McBryde plantation. Meanwhile it is being financed without McBryde being called on to put up the money such an enterprise would cost, and the preliminary work and financing has been done practically without promotion fees. It is estimated that when the power plant is completed it will effect a net saving to McBryde plantation of \$75,000 a year. The matter of the present distribution of the stock is a matter of convenience only, pending the settlement of one or two legal questions which in no wise affect the construction or operation of the plant.

The article of incorporation of the Kauai Electric Company, Ltd., were filed yesterday afternoon with the Territorial treasurer. The company is composed of D. P. R. Isenberg, Francis M. Swanzy, George F. Davies, W. A. Kinney and W. E. Rowell and its existence is stated to be for fifty years.

(Continued on page seven)

MERGER MAY FORCE DISINCORPORATION

MAJORITY STOCKHOLDERS COULD
NOT FORCE CONSOLIDATION EX-
CEPT BY ROUNDABOUT METHOD

There has been no official gathering of the minority and majority interests of the two steamship companies regarding the consolidation. The proposed merger is still in the air, definite action along those lines being dependent upon the reports from the committees that are appraising the property of the two concerns.

Strong assurances have been given the minority stockholders of the Wilder Company that their interests and the interests of the Inter-Island minority stockholders, will be protected, but thus far, none of the Inter-Island minority stockholders appear to have been indulging in any very hard kicking over the proposed merger.

According to the laws of the Territory there would probably be no way to prevent the merging of the two interests, even though the minority stockholders should resist. According to the Hawaiian statutes while a majority of stockholders could not effect an out and out merger in the face of kicks from the minority, such a combination could be effected by other methods fully as effective as the simple process of straight merger. The majority stockholders of a corporation could decide to disincorporate. If such action were taken by the majority of the stockholders, the property of the company would be put up at auction and sold and the proceeds divided among all the stockholders. It is likely that this method of arriving at the merger would prove more satisfactory to some Wilder minority holders as a better price would probably be realized than if the stock were purchased by private sale. The minority stockholders who are opposed to the merger are understood to be awaiting developments. Nothing definite is likely to occur until the reports of the committees shall have been received. Some weeks will be required for the completion of those reports.

BIG RESERVOIRS.

H. A. Jaeger commences in a day or two to construct two immense reservoirs for the Koloa Sugar Company, the capacity of which will be something enormous.

FOR ALLEGED POISONING.

Nomi M'ao and Yoshimoto Japanese employees, have been arrested today by Sheriff Coney of Kauai on a charge of having attempted to poison Manager B. D. Baldwin and family on Makaweli plantation. The preliminary examination was held today at Waimea.

GOVERNOR CARTER GOES HOME.

Governor Carter went home after noon today and could not therefore be seen in connection with the appointment of Justice Wilder. He received a cable announcing the appointment from Washington. The Governor is hard at work on his report.

LEFT DEEP WITH GENERAL CARGO

THE ALAMEDA SAILED THIS
MORNING WITH FREIGHT IN
EVERY AVAILABLE SPACE.

With only three cabin passengers but crowded in every available space with freight, the S. S. Alameda sailed a few minutes after 9 o'clock this morning for San Francisco. The vessel carried a large assortment of general cargo. Sugar constituted most of the shipment there being about 1,400 tons aboard. In this part of the cargo, were included 2,000 sacks of refined sugar from Honolulu Plantation. The vessel carried hundreds of bunches of bananas, 2000 sacks of Hawaiian rice, some coffee, pine apples and other stuff. Freight was even put into the baggage room. She had to leave considerable freight behind owing to lack of space.

Among the cabin passengers was Col. French of the Salvation Army who has been in the islands on a tour of inspection for some weeks. Miss G. Powers the milliner left for a business trip to the mainland. S. Jevens a merchant of the colonies who had stopped over from the last through vessel, left for the mainland. A good sized crowd left in the steerage.

The Alameda was drawing 20 feet forward. She is due in San Francisco next Tuesday.

HAD NARROW ESCAPE.

EL PASO, (Tex.) January 12.—In a wreck on the Rock Island passenger train in the local yards this morning, when the engine turned over and caught fire, Ignace Paderewski, the world-famous pianist, had a close call, as the engine rolled over within a few feet of his private car and the flames from the burning woodwork on the engine and a broken gas main leaped high and close to his car.

Paderewski had just arrived from Los Angeles to play here tonight, and his car would have been smashed had the engine rolled a few feet further.

HAWAIIAN AGRICULTURAL.

It was announced at the annual meeting of the Hawaiian Agricultural Company yesterday that two thousand acres of Yellow Caledonia cane was being planted for the crop of 1937. Mr. Sweeney of the experiment station will shortly go to Kauai with a quantity of poultry birds to establish them in the plantations there as a means of destroying the leaf hopper.

Four island steamers arrived this morning from Kauai ports with cargoes of sugar. A total of 21,600 bags of sugar was brought by the four vessels. The vessels arriving were the Twain from Koloa with 5,000 bags, the Kauai from Hanalei with 5,000 bags, the Niihau from Makaweli with 6,250 bags and the Mikahala from leeward Kauai ports with 4,450 bags. Most of the sugar is being discharged at the Railway wharf to be put into the warehouse for the S. S. Arizonan which is due on Monday from San Francisco.

OBJECTIONS BY THE DEFENSE

JONES MURDER TRIAL DRAGGING
ALONG VERY SLOWLY IN JUDGE
ROBINSON'S COURT.

The Jones murder trial is rapidly simmering down to a sort of an objectionfest as the defense, alive to every opportunity for the advantage of the defendant, allows few questions to go past without a challenge.

Yesterday afternoon exception was taken to a question by Deputy Attorney General Peters as to the condition in which the deceased Mrs. Jones was after she had been assaulted by Jones in July, 1928. Argument as to the admissibility of the evidence of Mrs. Marcus Parmenter on this point was protracted and this morning Judge Robinson ruled the question out.

Mrs. Parmenter was put on the stand again this morning and Deputy Attorney General Peters then offered in evidence the court record of the divorce which Mrs. Jones obtained from the accused.

Again the defense objected, Attorney Robinson claiming that the divorce alone would be incomplete as in it were references to the libel which was itself a part of the record. The objection was overruled and an exception allowed.

Peters then took the witness over the relationship which existed between deceased and Charles Stone and despite repeated objections established the fact that Stone had proposed marriage to Mrs. Jones. Mrs. Parmenter's examination continues this afternoon.

FORECLOSURE ON HAWAIIAN HOTEL

HAWAIIAN TRUST COMPANY EN-
TERS A PETITION FOR SALE OF
THE PROPERTY AT AUCTION.

A petition for foreclosure of mortgage was entered by the Hawaiian Trust Company (Ltd.) against the Royal Hawaiian Hotel company (Ltd.) this morning in the Circuit Court. The petition sets forth that on July 15, 1922 a mortgage was executed by the Hotel company of all its property, land, hotel buildings and contents and good will of the business to the Trust Company. At a meeting held July 10, 1922 the directors of the Royal Hawaiian Hotel Company authorized the issuance of 150 first mortgage coupon bonds of \$1000 each which action was confirmed by the shareholders. The directors thereupon issued 143 of the first mortgage bonds to a value of \$143,000. On April 22, 1924 Bishop & Co., gave notice of resignation as trustee and on May 16 a majority of the owners of bonds secured by trust deed consented to the appointment of the Hawaiian Trust Co., as trustee. Bishop & Co., on May 31, 1924 transferred to the Trust Company all of the real property, leaseholds and good of every kind described in the mortgage deed of trust.

Default in the payment of interest due January 15, 1924, July 15, 1924 and January 15, 1925 so that there is now due and owing \$143,000 and interest.

The plaintiff prays that the trust deed be foreclosed and the property sold at public auction and that the plaintiff may be allowed to become a purchaser in its corporate capacity.

DAILY STOCK REPORT

Between Boards Sales: 40 Ewa, \$31.50	
70 McBryde \$11.00; 25 McBryde \$11.00;
